

Peal Compositions
of
Cambridge Surprise Maximus
by
David G Hull

11 January 2008

This document represents my complete collection of compositions of Cambridge Maximus, both rung and unring. Where known, rung compositions are marked with an asterisk, although there are probably some omissions.

The emphasis of most of the compositions is to produce little-bell roll-ups, occasionally offset with some more traditional back-bell roll-up music. Alex Byrne is credited with suggesting to me the possibilities offered by starting at the snap before the Middle or the handstroke of the Home lead-head and, in both cases, immediately calling a 34 single. This has provided a new and interesting avenue of investigation.

As with any collection of compositions, typographical errors creep in from time to time. I hope I have kept these to a minimum but please, as always, prove a composition before you ring it. Please let me know of any errors that you find.

Anyone is welcome to ring any of the compositions, although please let me know if you ring one that isn't marked as having been rung before (and please credit the composition number in *The Ringing World* / Campanophile report).
